#E-Learning@Lock Down

Month : April to June 2020

LOVE - U - MOM

Wish you a good luck for the

Go Corona Go

From Principal's Desk

"Success is failure turned inside out

The silver tint of clouds of doubt

And you never can tell how close you are

It may be near when it seems afar

So, stick to the fight when you're hardest hit

It's when things seem worst that you mustn't quit"

Optimism is the key word today. Yes, this special edition of *Insperia* will take you on a hopeful ride towards tomorrow when we will be successful in fighting with the unseen enemy as we can see the silver lining amid the black clouds today. All the good things will come to us in near future provided we stay firm & determined without thinking an ounce of quitting the game till the last battle is won.

Covid-19 has brought a lot of change in everyone's life. The world was closed. The life slowed down. We got the chance to hear the birds sing, to witness the buds changing into blooms. The school building was shut down too but not the school. Our teachers worked day and night preparing lessons and support material to take virtual classes. Without any prior training they took these classes, solved the queries of students as well as parents. Online Recapitulation and PTMs were also arranged.

Amid all this our sole concern is our kids. The innocent kids who have to bear the brunt of the present scenario where they can't go out to play and meet their friends. They can't utilize their energies in any physical activity which they loved to do earlier. I must request parents to give moral and emotional support to the children so that their mental health remains perfect.

The kids can always make up for the loss if any, related to academics when the school reopens. Till then, parents have to be there with them as their friends. It's always a better idea to have meals together, study story books, play board games, watch good programmes and talk to your kids.

In the meanwhile browse through this edition of *Insperia* and watch your kid growing stronger physically as well as emotionally.

ESSENCE

- World Earth Day
- Manav Ekta Diwas
- International Dance Day
- Virtual Classes
- Online Recapitulation
- Virtual Parents Teacher Meeting
- Labour Day
- Mother's Day
- Samarpan Diwas
- World Environment Day
- World Day Against Child Labour
- National Smile Power Day
- International Yoga Day
- World Music Day
- Father's Day
- Fitness & Recreational Activities

Editor's Talk

'If winter comes, will spring be far behind?'

Life is a combination of action and contemplation. We just can't sit and wait for the winter to go. Although everyone is waiting desperately for the Covid to go which surely will vanish in the near future.

Our team has tried to collect all bits and pieces of activities performed during this time while staying at home, following social distancing as well as staying connected through the gadgets. We hope, you will enjoy this roller coaster ride till we meet again.

World Earth Day (22nd April, 2020)

"WE DON'T INHERIT THE EARTH FROM OUR ANCESTORS, WE BORROW IT FROM OUR CHILDREN"

We all know that mankind is battling with one of its toughest crisis today: the outbreak of Covid - 19. Our students also celebrated 'World Earth Day' on 22 April 2020 along with the whole world with a little twist. Due to lockdown the world was rejuvenating itself and the human beings helped the Earth in its auto healing mode. The students of our school contributed their lot by

- (i) Making cloth bags and sending their pictures with the same.
- (ii) Taking safe hands challenge and uploading their video of washing hands the ideal way (as prescribed by WHO).

Manav Ekta Diwas (24th April, 2020)

‘Blood should flow in veins and not in drains’. The spirit of oneness and universal brotherhood is observed every year on Manav Ekta Diwas. This year the blood donation camps were less in number than the previous years due to the lockdown but this could not dampen our students’ spirit. They observed this holy day by staying indoors, making collages and shooting videos to promote the principles of humanism, caring and sharing. They showed their gratitude to the Corona Warriors by making ‘Thank You cards’.

International Dance Day (29th April, 2020)

'DANCERS DON'T NEED WINGS TO FLY'.

29 April was celebrated as International Dance Day. The students showed their dancing skills by making their videos of Folk Dance and Bollywood songs. They participated in this activity enthusiastically and it was quite tough to judge who performed better as all of them were worth watching.

Virtual Classes

The Covid-19 pandemic brought with it a major shift in the system and working of the world. Our school was also not left untouched by the influence of technical outburst of 'Online classes'. Virtual classrooms is the obvious substitute for the actual class. So, the teachers and students started meeting in newly styled classes, sitting in their living rooms. Though the teachers as well as the students were new to this method of school but gradually they coped with all the glitches. The teachers tried their best to make their lessons effective and attractive by sending various assignments, making PPTs, sending links, videos and even using whiteboards.

Online Recapitulation

As the students and teachers familiarised themselves with the new system of education the school activities functioned smoothly. Then a need for recapitulation of all the learnt portion was felt. So, we conducted Online Recapitulation, which was again a challenge for both teachers as well as students. It was quite surprising to see the spirit of the super kids who did fairly well in the Recapitulation.

Virtual PTM

The school education does not stop at just imparting knowledge to the students. It's a two way channel where the teachers must know the feedback and PTMs are the best way to get honest feedbacks. So, the virtual classes and virtual tests needed a virtual PTM. The Parents teacher meeting was also held before the summer vacation. The parents were told about the new style of working of the school, the problems were discussed and the solutions were sought.

Labour Day (1st May, 2020)

'Pay the worker his wages before his sweat has dried'

The students of our school showed their concern for the labour class by making posters on the eve of Labour Day, i.e. 1 May, 2020. They expressed their gratitude and the need for giving the labourers their due rights through their thought provoking posters.

Mother's Day (10th May, 2020)

'A mother is she who can take the place of all others but whose place no one else can take'

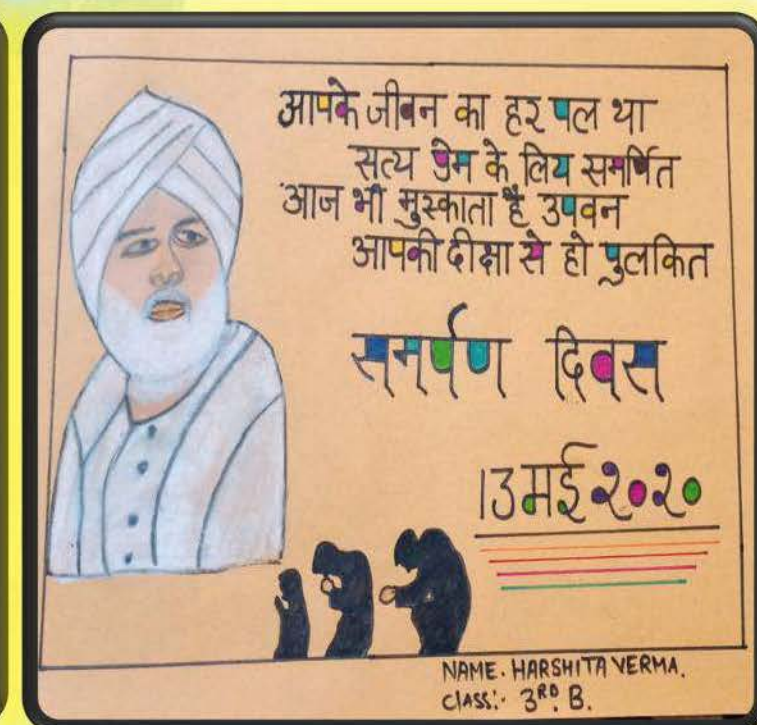

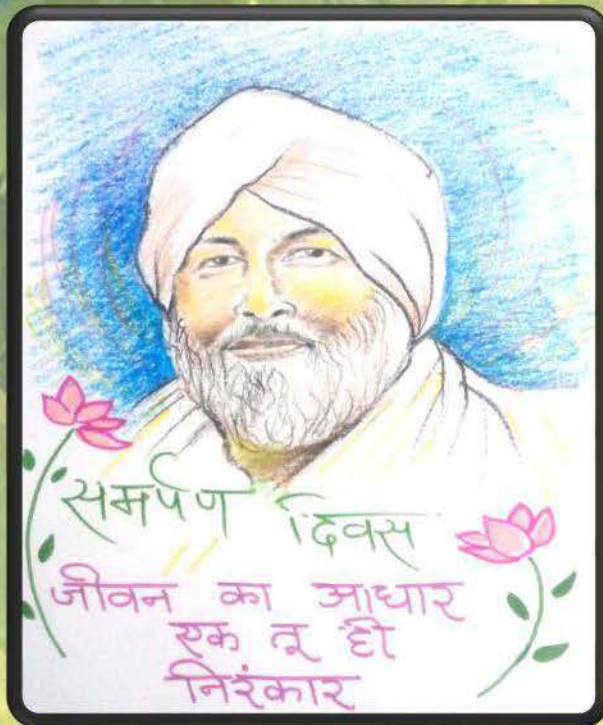

The lovely day of 10th May was dedicated to all the lovely mothers of the world. Everyone expressed their adoration in every way they could to make their mothers feel special. The class whatsapp groups came alive with beautiful flowers, cards, cakes, videos, songs and what not. It was an overwhelming day for mothers who proudly posed with their doting kids. The SNPS family wished love and affection to each and every student for lifetime.

Samarpan Diwas (13th May, 2020)

'Our belief in God turns into faith in God when we realize God'

The students, teachers and the world remembered Satguru Baba Hardev Singh Ji Maharaj and his teachings on 13th May, 2020. The Samarpan Diwas brought back all the memories of the ill-fated day when we lost Huzoor. The students made lovely cards and collages remembering Babaji.

World Environment Day

(5th June, 2020)

'LET'S NURTURE THE NATURE SO THAT WE CAN HAVE A BETTER FUTURE'

Greed of man has led to ruthless exploitation of natural resources, causing tremendous damage to our Mother Earth. Hazards like pollution and global warming are the result of such excessive misuse of our nature. Lack of awareness and human greed are some of the primary reasons which are leading to destruction of our environment.

This year our students celebrated 5th June at their home doing wonderful activities like planting a sapling, writing slogan on "Say No to Pollution", making posters on "Reduce, Reuse and Recycle" and even speaking their views on the topic "Protection of Ozone Layer". These activities sensitized them towards the environment and the little all of us can do to make it beautiful.

Sant Nirankari Charitable Foundation also organized a live event on this day through Social media regarding 'Nature & Co Existence'. Thousands of people were invited to be a part of the solution "Be the Voice of Nature for the Nature".

World Day
Against
CHILD
LABOUR

World Day Against Child Labour

(12th June, 2020)

The students were informed about the day against child labour. This day is observed on 12 June every year to condemn the atrocities on children as labour. There was a poster making activity for students to know the importance and raise awareness about negative consequences of child labour.

National Smile Power Day

(15th June, 2020)

'A warm smile is the universal language of kindness.'
Yes, a smile is indeed an inexpensive way to improve your looks. The Pre-Primary students were asked to smile in front of the camera. This very simple activity made everyone's day. There were hundreds of lovely smiling cute pictures which flooded the whatsapp group. Indeed when you focus on the good, the good gets better.

International Yoga Day

(21st June, 2020)

'Yoga is the journey of the self, through the self, to the self.'

It is indeed a matter of pride for all of us that the ancient Indian discipline has received such worldwide recognition and is being adopted by millions around the globe as a key to holistic well-being. Our school also celebrated this day with much enthusiasm. The students performed various yoga postures with their family, clicked pictures, made videos and spoke on the importance of yoga in our lives too. We can't forget the importance of yoga and pranayama in the present scenario. So, virtual yoga classes were also held on this day for students as well as the staff members. Everyone was excited to take part in it and make yoga their way of life.

World music Day (21st June, 2020)

'Without music, life would be a mistake'

World music day was celebrated melodiously by the students. They sang songs, played their favourite musical instruments, made their videos and sent them to us. The musical day was well spent listening to the mesmerizing music.

Father's Day (21st June, 2020)

'A Father is neither an anchor to hold us back nor a sail to take us there, but a guiding light whose love shows us the way.'

And then there was a day for the unsung heroes of our lives.... our dear Fathers. The students poured out their hearts for their affectionate dads. There were posters, pictures, gifts, cards and cakes for their fathers. The proud fathers' beaming faces could speak everything.

Fitness and Recreational Activities

Our teachers wish for students' overall development. Even during lockdown, anxiety and stress all around they gave their whole hearted support to the students to feel at ease. Apart from academics they sent videos related to FIT India movement for the students in their class what's app group. They were asked to do yogasanas, aerobics, zumba and even indoor games for their recreation. The dance teacher sent mime videos to the students for reference. All this effort didn't get wasted as our dear students followed the teachers' advice and prepared their own videos doing such activities. Yes, thankfully the technology was a great medium during this time to communicate.

GLIMPSES
OF
