Introduction

*And even though it's hard
and I may struggle through it all,
You may see me struggle...
But you will never see me fall.*

We all are here to play, to dream, to work hard and to lift the loads of our part. Evidently, we can't shun struggle as sooner or later, each one of us have to face it because it is god's gift. So, it's better to make hard work a habit right from the very beginning as it is eventually, going to pay us back in the long run. With this thought we welcomed the new year.

The New Year-2023 brought with it new resolutions, futuristic plans, novel ideas and updated policies. The school celebrated Republic Day and other special days with cheer and festive flavor. The Academic Session 2022-23 came to an end with the Annual Exams which were successfully conducted and the Results were duly declared.

With the hope of becoming the better version of ourselves, here is the crispy new edition of Insperia promising a promising new year ahead!!!

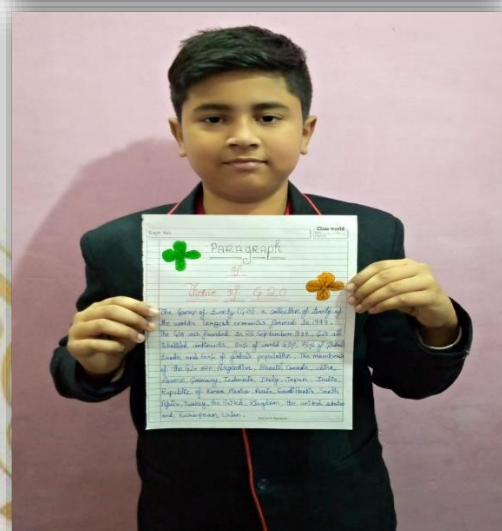

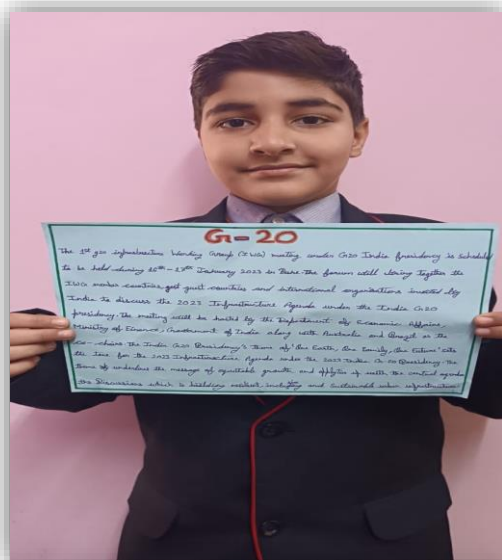

Happy Reading!!

PAREEKSHA PE CHARCHA

A live telecast of Pareeksha Pe Charcha was organised in our school auditorium for the students of class VIII to X on 27 January, 2023.

The Prime Minister Mr. Narendra Modi introduced his book 'The Exam Warrior' which has been published in 13 languages. He has explained about the upcoming technologies in the field of education.

He motivated students to tackle stress they usually get from family and peers. He advised students to remain focussed on their goals and not to compare each other's social status.

He advised students to be a smart worker along with a hard worker. He told students to enjoy each subject and focus on their weak points. He guided the students to accept criticism positively and never to indulge in unfair means. He also stressed on digital fasting in order to become successful.

This charcha, on the whole, was a huge success as the students watched it attentively and their parents were also part of it since they were advised to watch it.

ADOPT A PLANT DRIVE

'Someone is sitting in the shade today because someone planted a tree a long time ago.'

In order to conserve the environment and promote the green corridor in our vicinity, the school started 'ADOPT A PLANT DRIVE' in the month of January. The students were requested to cooperate in this drive to make our world a little more cleaner, greener and more breathable. The students were motivated to bring a sapling to school on their birthdays and later on to take care of it by adopting it. They are supposed to bring a sapling on the next working day if their birthday falls on a holiday. They are free to take their picture with the plant and enjoy watching it grow. This Drive will definitely make the school more beautiful and motivate the students to develop a healthy habit of taking care of our Green Friends.

KINDNESS DRIVE

"Kindness is not an act,

It is a lifestyle"

The Kindness Drive was started before Christmas in our school when all the students and staff members donated things of daily use & eatables whole heartedly.

On 1st February, 2023, the students of Class-X along with a few of the teachers visited a Gaushala in Bawana Industrial Area where they distributed the books and stationery items to the children of the labourers and other things to the old people and women there.

It was an initiative to instill values of kindness in the tender hearts of the students and enjoy the feeling of satisfaction after spreading smiles on face of others who are not so fortunate.

Alumni Corner

I came to this school like clay ready to be moulded, much like the drawing I was making in Grade - I which is, consequently, also the first memory I can recall from SNPS. Growing up on the stage in the auditorium, speaking - the school made me all that I am today (pursuing MBA from one of the premier B-schools, MDI Gurgaon and now doing internship at Trident Group). From speaking to writing, the school taught me everything.

The teachers held my hand, as they helped me draw the picture of my life, the picture of where I am standing right now, all of which could not have been possible without them and to whom I am eternally grateful. The teachers didn't just teach me, they loved me as if I was one of their own. There is an old saying that says "school is considered the second home for kids" but SNPS made me feel just like my actual home there.

The school taught me not only the knowledge written in ink, but the knowledge only engraved in experience. They taught me to face my problems, my challenges and fight them like a warrior, and never back out. The Nirankari values that the school gave me helped me grow as a person. They taught me to respect all regardless of age and that kindness is very easy to give and it makes the world a better place to live in.

When it came time for me to leave the school, I felt like a baby bird, finally ready to take its first flight, ready to face the cold, hard world on its own. Scared as I was, the school had prepared me for this moment ever since I stepped foot in it.

If a new admission were to walk up to me right now and ask me what should they do, I would just say "pay attention in your classes, your teacher knows best, you may think you know better, but trust me, you would be wrong". You understand the worth of something when you let go of it, and even though I already did understand the worth, my respect and love for this school, for my teachers, grew several folds.
