Introduction

*“Success is not final, failure is not fatal
It is the courage to continue that counts”*

- Winston Churchill

Indeed, success is failure turned inside out. In fact, both are the two sides of the same coin. One can never be enjoyed and cherished until the other one hasn't been tasted.

In the last leg of the session 2023-24, we at SNPS, made sure that the students work harder as well as smarter, to come out with flying colors in the Annual Exams.

The exams were starting, nonetheless, the activities were still going on along with the spirit of the never-ending enthusiasm and never-say-die attitude which can take the students to the zenith of success.

The Annual Exams ended and the results were declared. The hard work of the students was duly rewarded. Amidst Orientations, books, uniform and everything else the new session started quietly and the old one giving way to the new one fell exactly in its place. Meanwhile, we turned a year older. As promised earlier, we are here with a new edition of *Insperia*!!

Happy reading!!!

The event took place at Bharat Mandapam in New Delhi. PM Modi Ji addressed various issues, including how students can handle pressure from themselves, parents, and family. He emphasised the importance of healthy competition among students and highlighted that a student's report card is not an invitation card for parents.

During his address, pm highlighted two types of pressure on students: self-imposed pressure from rigid plans leading to mental fatigue, and external pressure from parents, siblings, and teachers. He emphasised how teachers and family can help students alleviate this burden.

During his address he encouraged the teachers to go beyond the syllabus, PM Modi Ji believes this approach enhances student's confidence and enables them to correct even minor mistakes.

PM Modi Ji also advised students to cultivate the habit of spending time in the sunlight daily, emphasising its role in recharging the body. He encouraged students to incorporate outdoor activities, such as reading in sunlight, into their routine for overall well-being.
